Dunbier

for boat trailers

Dunbier boat trailers are a big part of Australia's boating history. Manufacturing more boat trailers than any other brand in the marine industry, means servicing and maintaining Dunbier trailers has evolved into a full time opportunity for many marine and specialist dealers across the country.

From humble beginnings over 50 years ago, the Dunbier name has grown to be one of the most trusted brands of boat trailers anywhere in the world.

Founded by Russell Dunbier in a small single bay Melbourne factory, family owned and operated Dunbier Marine Products now incorporates a state-of-the-art manufacturing facility in Braeside, Victoria, branch offices in Brisbane, Sydney, Adelaide and Perth, and employs over 70 hard working Australians across the country.

The Dunbier range of trailers has evolved and to this day we have the widest range of highly advanced products of any trailer manufacturer bar none. We can provide you with the right choice to suit not only your boat, ski or kayak, but also the type of boating you enjoy.

Our nationwide dealer retail network is the backbone of our business and you can be assured that wherever you see the Dunbier name you will be provided with the best possible service and knowledge in the marine industry.

As part of our commitment to our customers we manufacture and supply a comprehensive range of spare parts so that your Dunbier trailer can be maintained to the highest standards. With everything from replacement frame sections to consumer driven retail products, there is a Dunbier part for you.

We hope you find exactly what you are looking for in our range and look forward to you experiencing the Dunbier Difference like so many before you.

At Dunbier we believe that a day spent on the water is one of the best days you can have and we are proud that we can help to make those memories for so many Australians.
